SAFETY SOLUTIONS

Over 500,000 man hours worked!!

“Congratulations” to the Cat Spec 2006 Team. The safety department wants to thank the Cat Spec 2006 team for the effort put forth by Cat Spec as a whole, this year for achieving a milestone by working over 500,000 man hours without a lost time accident or recordable. Cat Spec, Ltd is taking that

safety momentum into the 2007 calendar year. At Cat Spec we believe that a well trained workforce is the foundational building block needed to succeed in all facets of our respected business, a cornerstone that we can build on now and build on for the future.

John Valdez
HSE Director

TURN KEY SOLUTIONS:

- Catalyst Unloading & Loading
- Tray Removal & Installation
- Non Coded Internal Vessel Welding
- Reactor Bolt Torquing & Stud Tensioning
- Internal Mechanical Consulting
- Elevator Rentals
- Tray Tower Installation & Repair

“We strive to be the leader in the catalyst service industry, by providing all clients with the best personnel and equipment on every related project. We are committed to the highest levels of SAFETY and QUALITY to ensure complete customer satisfaction.”

OPERATIONS - COMPLETED MAJOR PROJECTS

ConocoPhillips - Westlake, La
#10 Reformer T/A:

Cat Spec was selected to perform turnkey services on an HDS and CCR Regenerator blind to blind including a partial shell “coded” replacement and screen modification.

Cat Spec supervisors and craft had a great attitude – wanting to get the job done safe and done right the first time. Regenerator was primary critical path and was completed 2 shifts early with making additional repairs identified by inspection. Cat Spec under-

stands that with safety, planning and quality in place, execution runs smoothly, allowing for successful and timely completion of task. I recommend Cat Spec to anyone looking for a safe, quality and timely completion of a project.

Phillip Hughes, Jr.
